

Form 2 - Utah Annual Burn Schedule.

This application applies to Land Managers that conduct more than 50 acres of prescribed burning per calendar year. To be submitted annually by March 15. Project Number (PN) assignment should be coordinated at each unit with 3 letter ID so that duplication does not occur. For multi-year projects, you can use the same PN each year. When the burn plan has been modified or the UTM has been changed a new PN should be assigned.

Date: 2008 Submitted by:
